

Post-Graduate Diploma in Education Management

The secret behind excellent learning outcomes in Finland is based on highly educated teachers using a wide range of student centred teaching approaches. However, that is not all. Also, other staff members in educational institutions have a good pedagogical insight combined with excellent leadership and administration skills matching their work environment. This is why we at Humak offer a diploma programme in Education Management, a programme suitable for both teaching and administration staff at any educational institution.

The post-graduate diploma programme can be tailored to the specific need of your institution covering 30-60ECTS. This is an excellent programme if you feel that you would like to gain a new and wider insight into pedagogical approaches as well as leadership at educational institutions.

The programme could for instance be designed with different combinations of the following modules:

Orientation 10 cr

- Career planning
 - Finnish and European educational systems
- Student-centred learning

Pedagogical design and practices 10 cr

- Pedagogical scripts for collaborative learning
- Activity-based methods
 - Collaborative online learning

Guidance and coaching 10 cr

- Individual learning paths
- Teacher as a coach
- Coaching methods

Quality assurance in teaching 10 cr

- Assessment practices
- Pedagogical processes
 - Continuous development

Pedagogical leadership 10 cr

- Designing learning environments
- Leading change in pedagogy
- Learning in projects

Pedagogical change project 10 cr

- Individual/team project on transformative learning

These are examples of modules and contents that could be part of the programme. Based on your specific need, we are able to put a greater focus on pedagogical approaches or on leadership, to make sure you will get a programme matching your specific development and training needs.
