

Why should you answer student surveys?

Based on the surveys, Humak's operations are developed. See how previous feedback has affected everything.

HUMAK®

HUMAKO

Career planning helps you plan your studies and future

Career Planning is a course that continues throughout your studies. It covers information important for students, such as the recognition and validation of prior learning (RPL), social benefits and guidance for building your own study path at Humak.

Developing global skills at Humak

You can develop your global skills in various ways in Humak. If you are an international student, you can for example study foreign languages, develop intercultural competence by completing courses with an international perspective or do your internship in Finland in order to develop Finnish language skills.

Students' Guide guides you through your studies

You can find all the up to date information about your studies in the students' guide. In the guide you will find, for example:

- A Small writing guide
- Information on using AI in your studies
- A guide to internship practices
- A Thesis guide

Various ways of completing your studies

Develop your skills in ways that suit you! You can study at Humak in different ways. For example, you can study in Finnish or in English, participate in projects or Work alongside your studies and get credits for it.
